

Vocabulary

1	Seasons	A time of the year; there are four seasons in a year.
2	Spring	Follows winter; a time when plants start to grow and most animal babies are born.
3	Summer	Follows Spring; the warmest season of the year.
4	Autumn	Follows Summer; leaves start to fall from trees.
5	Winter	Follows Autumn; the coldest season and a time when animals hibernate.
6	Earth	The planet that we live on.
7	Sun	The star at the centre of our solar system.
8	Sunrise	The time in the morning when the sun appears.
9	Sunset	The time in the evening when the sun disappears from sight.
10	Day Length	The amount of light we get from the sun in a day.

Key knowledge

1 Why do we have seasons?

The earth moves around the sun. The earth is tilted and so it is sometimes near the sun (Summer) and sometimes further away (Winter).
